

SWORD PRESENTED SCHLEY BY THE ROYAL ARCANUM. The jeweled sword presented to Rear Admiral Winfield Scott Schley Friday night in New York by the Royal Arcanum is a magnificent specimen of the swordmaker's art. It is of regulation size, the blade is of the finest Damascus steel, and the grip is of sharkskin bound with gold wire. The guard is of 18 carat gold and has the rear admiral's monogram in diamonds on the front. The seabbard is of oxidized silver, and the past regent's jewel, the dolphin and all the ornamentations are of 18 carat gold. Etched on the blade is a scene representing the destruction of Cervera's fiect. Rear Admiral Schley is a member of Farracut council, No. 650, of Washington and is a past regent of that council, having served two terms as its presiding officer.

ALGER AND MILES

Secretary of War and Command-

ALGERISM AT THE LIMIT.

It is said the administration has stood by Feeretary Algar with great for bearance. His eccentricities, insincere personality and experimental freaks in the War Department have reached the

THE HUB. THE HUB. THE HUB.

The Great Clearance Sale Is Breaking All Records.

It began like a whirlwind last week, and every day has continued its record breaking career. You certainly must admit that such values are unprecedented-even for us to offer. But we'd rather lose every penny of profit and part of cost rather than be caught at the season's end with a big surplus on hand. To let each season care for itself has been the life-long principle of "THE HUB" - and to live up to it we have gone to work with a will to cut a clearing of the Winter merchandise.

We start in the second week with even greater values than before—with deeper cuts—greater sacrifices. And please don't forget that every stitch of clothing in this store was made a especially for THE HUBa fact which gives it an inestimable value over clothing made up to be sold to the highest bidder-without regard for workmanship, style or anything else.

Don't neglect your opportunities. Be among the wise buyers to-morrow.
